

Daal N Bass Ecommerce Shots

FRONT · CENTRE CHEST LOCKUP

BACK · FULL POSTER PANEL

Every shot needs a BTS.

Non-negotiables

- 4:5 native, 10 percent crop margin
- White seamless, paper at 250 to 252 RGB
- Tripod locked between front and back
- Tethered, ColorChecker every garment
- Steamer before every take
- Lint roller on black

01 FF Full body, front

50 to 75mm, use 56mm

Head to feet. Square to camera, feet at shoulder width, arms hanging with a gap from the body, chin level, eyes to the lens.

SUNGLASSES Reference shows sunglasses OFF. Shoot this frame both ways, same tripod mark.

WATCH

Hands must not break the hem line. No curled fists.

02 TF Three-quarter, front

50 to 75mm, use 56mm

Alternate front framing, mid thigh up. Same idea as 01 but tighter, so the chest print reads bigger in the grid.

SUNGLASSES Reference shows sunglasses ON. Shoot this frame both ways, same tripod mark.

WATCH

Shot 02 and 03 share a tripod mark. Set it once.

03 TB Three-quarter, back

50 to 75mm, use 56mm

Same mark as 02, model turns 180 degrees. Head straight forward, arms carried slightly forward of the side seam so the back panel is one unbroken surface.

WATCH

Nothing on the back. No chain, no lanyard, no hair over the yoke. Steam the shoulder crease before every take.

04 HF Half body, front

50 to 75mm, use 56mm

Crown to low hip. Body off axis by 10 to 15 degrees, weight on the back foot, one hand in a pocket, the other loose. Eyeline just past the lens.

SUNGLASSES Reference shows sunglasses OFF. Shoot this frame both ways, same tripod mark.

WATCH

Past about 20 degrees of turn the chest print starts to hide in the fold.

05 DF Detail, front

60 to 90mm, use 70mm

Chin to mid torso. Print sits in the middle third with air around it. Bring the key round a few degrees so it rakes across the weave.

SUNGLASSES Reference shows sunglasses OFF. Shoot this frame both ways, same tripod mark.

WATCH

You want ink sitting on cotton with visible texture, not glowing off a flat wall.

06 DB Detail, back

60 to 90mm, use 70mm

Crop through the neck and both shoulder seams. The panel fills the width and bleeds off the left and right edges. Head turned to profile.

SUNGLASSES

Reference shows sunglasses ON. Shoot this frame both ways, same tripod mark.

WATCH

Shoot two crops. Tight for the store, looser with the head in for social.

07 LF Flat lay, front

30 to 45mm, use 35mm

Straight down on white, sensor parallel to the floor, checked with a level. Body lightly stuffed with tissue, sleeves cocked forward and down, one soft fold at the hem.

WATCH

Keep a real shadow underneath. A cut out reads as a template.

08 LB Flat lay, back

30 to 45mm, use 35mm

Same rig as 07, garment flipped, sleeve angles mirrored so the pair sits together in the gallery. Panel centred, sitting in the upper third of the back.

WATCH

While the boom is up, grab the hangtag and the care label too.

09 NL Neck label

30 to 90mm macro, use 90mm macro

Straight down on the collar, garment flat, same boom as the flat lays. Collar opened just enough that the whole tag lies flat and square to camera.

WATCH

Every line legible at 100 percent. This frame carries the brand name, the care lines and the country.

EASY WIN A Red cyc, look changes

YOUR OWN PHASE 5 REEL

- Locked camera, model returns to the same mark every time
- One look per cut, hard cut, no transition
- Full length, red seamless, feet in frame
- Front then back on the hero pieces
- 35mm on the a6700, f/4, shoot 60p

EASY WIN B Headline crop, hands doing something

REFERENCE, OTHER BRAND

- Chest up, crop through the mouth, garment fills the frame
- One colourway per cut, locked framing so the cuts register
- Hands doing a different thing each time: cassette, mixer, chai, passport, mithai box
- The action is what reveals the detail, embroidery, collar, print edge
- 56mm on the a6700, f/2.8, shoot 60p

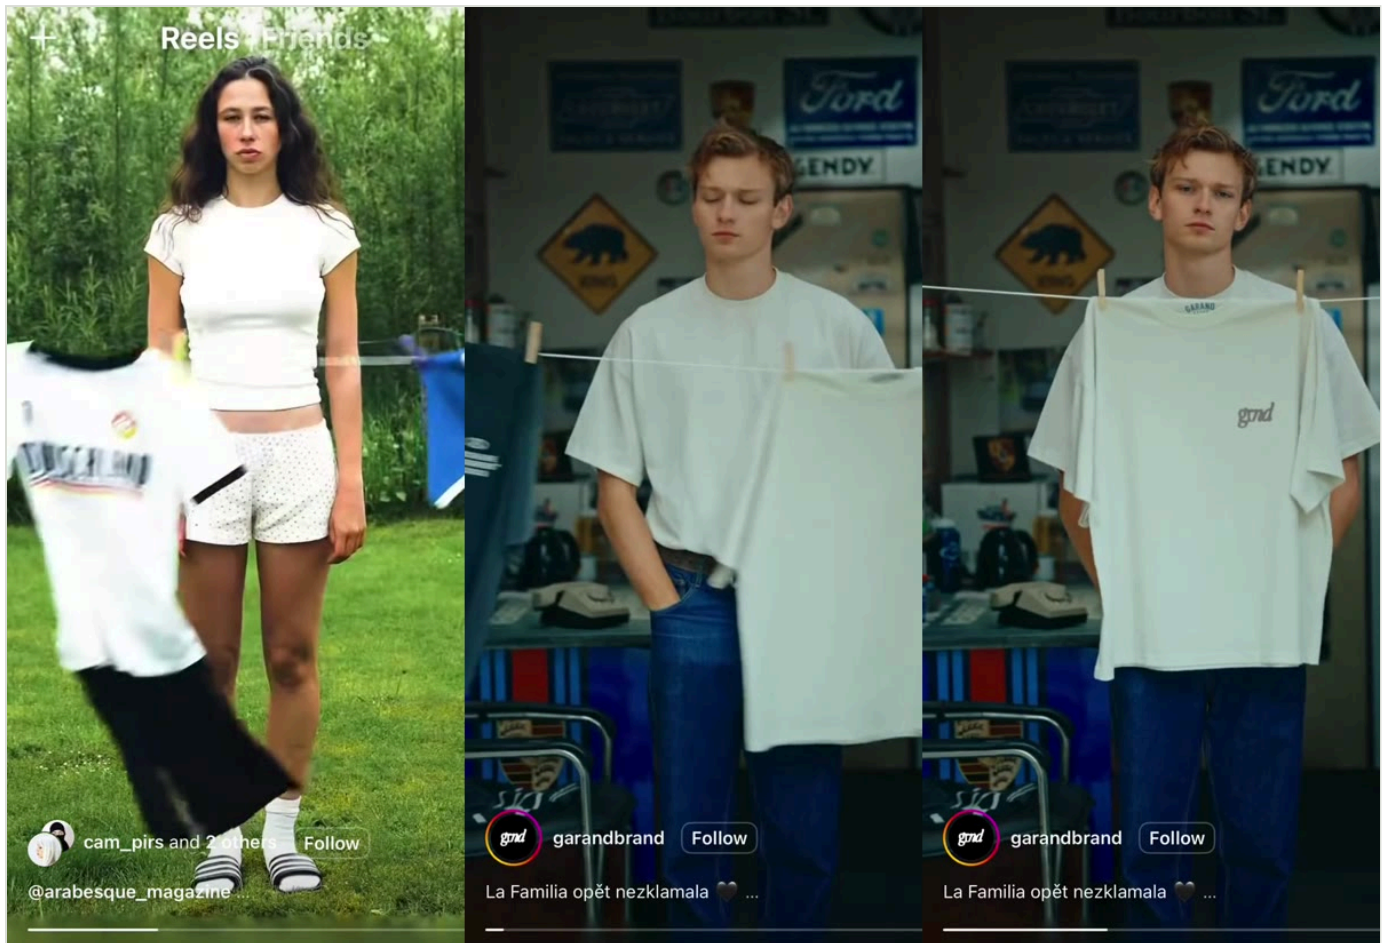

EASY WIN C Studio setup, the whole build

THIS SHOOT DAY

- Phone on a tripod in the corner before anything goes up
- Paper rolling down, stands going up, the first light test
- Steaming, lint rolling, tape marks going down
- Cut it to ten seconds, the caption does the selling
- Costs nothing, you are doing the setup anyway

EASY WIN D Clothes line, model still

REFERENCE, OTHER BRANDS

- Garments pegged on a line strung across the frame
- Model stands dead still, someone off camera swaps the piece in front of them
- The line is the culture, hang the whole drop on it
- Works outdoors on grass or indoors against the paper
- Locked camera, 35mm on the a6700, shoot 60p

EASY WIN E Front still, back moving

ANOTHER SHOOT DAY

- One person holds a still pose front of frame, sharp
- Second person moves behind them, slightly soft
- The back half carries the culture and the information
- Same frame, one take, no cuts
- 56mm on the a6700, f/2.8, shoot 60p

On set notes

Sunglasses

- 02 and 06 show them on. 01, 04 and 05 show them off. 03, 07, 08 and 09 have no face in frame.
- Shoot every on model frame twice, with and without, on the same tripod mark, back to back.
- Or lock one now and hold it across all five on model frames.

Camera

Sony a6700 is APS-C, so these are actual lens mm. Multiply by 1.5 for the full frame look.

- 01, 02, 03 full and three-quarter, 50 to 75mm, use 56mm
- 04 half body, 50 to 75mm, use 56mm
- 05, 06 detail, 60 to 90mm, use 70mm
- 07, 08 flat lay, 30 to 45mm, use 35mm
- 09 neck label, 30 to 90mm macro, use 90mm macro
- Everything at f/8, ISO 100, 1/125, manual white balance

Running order

- Block A, on model. Shoot 01 to 06 without the model leaving the mark.
- Block B, flat lays and neck label. Boom up, all garments in one run.
- About 40 minutes per colourway, plus 45 minutes setup and colour calibration.
